Switch NAS from Nebulas to Ethereum

Step 1. Swap NAS to WNAS

https://swap.nextdao.io/swap

Connect to wallet (Chrome Extension or App Wallet);
Input NAS swap amount;
Select swap to wNAS;
Click on SWAP.
Confirm transaction on Extension wallet or App wallet.

Step 2. Switch from Nebulas to Ethereum

https://link.nextdao.io/

Connect to wallet (Chrome Extension or App Wallet);
Input wNAS switch amount;
Input Recipient Address (your receiving address of Ethereum);
Click on SWAP, the 1st transaction is for contract approval, after transaction successfully, click swap again;
Confirm transaction on Extension wallet or App wallet;
Wait for a while to check your balance on the Recipient Address.

Chrome Extension Wallet

Download code (the entire ZIP file) from Github;
https://github.com/nebulasio/WebExtensionWallet

Load unpacked code to your Chrome Extension.
(Turn on Developer mode)
chrome://extensions/
The Extension wallet will appear on your Chrome.
